

fueling
the **curious**
mind

University of Wollongong

UOW AT A GLANCE
UNDERGRADUATE COURSES

UOW's quality graduates

UOW takes curious minds and develops qualities that will set them apart in the workplace, in further studies, and in life. UOW is strongly independent and self-reliant.

After studying with us, you will be too.

UOW Graduates are:

- Informed
- Independent learners
- Problem solvers
- Effective Communicators
- Responsible

These qualities aren't an abstract mission statement—they are integral to how we teach and develop courses, and are highly visible to employers.

Career Success

The University of Wollongong has held its position as one of the top two percent of universities in the world by its performance in three prestigious international rankings:

- QS World University Rankings 2010
- Academic Ranking of World Universities 2010
- Times Higher Education World University Rankings 2010

These rankings provide a comprehensive assessment of universities across a range of criteria, and this success mirrors the high demand for UOW graduates in the workplace.

2011 marks the eleventh year in a row that UOW has scored five stars in the categories of Getting a Job and Positive Graduate Outcomes. This shows UOW is a where students not only get a five-star education, but a five-star chance of getting a job with a top salary at the end of their degree.

- ★★★★★ Getting a Job
- ★★★★★ Positive Graduate Outcomes
- ★★★★★ Staff Qualifications
- ★★★★★ Research Intensity
- ★★★★★ Graduate Satisfaction
- ★★★★★ Generic Skills
- ★★★★★ Staff to Student Ratio

2011 Good Universities Guide (Universities and Private Colleges)

More Satisfied Students

UOW was ranked number one in Australia for student satisfaction in the independent Sweeney Group's 2009 'Uni Student Report'. This study asked students about the opportunities for them to be involved in campus life, which we believe is an essential part of the uni experience.

More to Do

UOW boasts a modern, spacious campus built around landscaped gardens and water features. Campus life at UOW is never boring. You might spend time at the award-winning UniBar, watching international music acts with your friends, or wander through the beautiful Wollongong Botanic Gardens.

You could browse the stalls of the regular markets, or unwind at any of UOW's sporting facilities, including: a fully equipped gymnasium; basketball, squash and tennis courts; sports fields; and a fifty-metre heated Olympic swimming pool. There's always something to do.

The University runs campus tours Monday to Friday during NSW school holidays (excluding public holidays). Call 1300 367 869 or email uniadvice@uow.edu.au to book.

Wollongong's coastal location provides a unique environment in which to live and study. You'll have the opportunity to take advantage of the city's 17 patrolled beaches, its shops, hotels and clubs.

With around 400,000 residents, the Wollongong region is large enough to offer the entertainment and conveniences of a city, yet small enough to retain the friendly, relaxed atmosphere of a coastal community. The UOW campus is less than five kilometres from the city centre and beaches and is situated at the base of Mt Keira. For students moving to Wollongong to study, UOW offers a range of student accommodation, located both on and off campus.

For more information on accommodation options, please visit www.uow.edu.au/about/accommodation

Bachelor of Creative Arts
(Visual Arts and Graphic Design)

Studying at UOW has helped me to achieve my goals by providing me with the necessary knowledge and skills to successfully progress into the design industry with comfort, initiative and creative flair. Studying at UOW has taught me to strive only for the best. The methods taught at UOW are now a natural process in my everyday approach to finding the best possible design solution for a client.

a place for high-achievers

A truly curious mind can turn a simple answer into a brilliant question. And all the best questions lead to more questions. There's always more to learn.

If you can't get enough when it comes to learning, our advanced programs will fuel your curious mind—and make you stand out in the job market and academic world.

Advanced Degrees

Advanced Degrees offer opportunities not normally available in undergraduate study. They include an integral Honours year and have a strong focus on research. They may offer the chance to undertake individual research projects, or work with teams undertaking high-level research—or both.

Students can enrol in more subjects than normal, effectively reducing the length of their degree, or giving them more time in later years to do their own research. Most Advanced degrees have an ATAR requirement of 93 (or equivalent), and students are required to maintain a certain level of performance throughout their studies.

Those interested in an Advanced degree can email UniAdvice to discuss the options available.

uniadvice@uow.edu.au

Engineering Scholar Program

Similar to the Dean's Scholar program, the Bachelor of Engineering (Scholar) is for high-achieving students with good mathematics ability. It is available for all Bachelor of Engineering degrees offered by the Faculty of Engineering.

www.uow.edu.au/eng/ugstudentinfo

Dean's Scholar

Designed for high-achievers, Dean's Scholar programs are enhanced undergraduate degrees that offer students the chance to get more out of their studies.

They offer a number of benefits including:

- Pairing with an academic mentor
- Special workshops and seminars
- Extended library privileges
- Designated study space
- Possibility of accelerating your degree
- \$500 textbook allowance per year (pro rata for part-time)

Academic mentors will be selected based on the student's interests and strengths. Discussing assessments, sharing ideas, investigating some exciting new development in research: Dean's Scholars find plenty to feed their curiosity.

Students also attend special seminars and workshops, and hear from a variety of guest speakers. This exemplifies the intellectual atmosphere in a Dean's Scholar program.

Every faculty at UOW has tailored their Dean's Scholar degrees—for more information, follow the links at www.uow.edu.au/future/school/whyuow/study/deansscholar

A Dean's Scholar degree is available with the same choice of major studies as the respective base program.

more for you

UOW offers you more than just degrees. We're always developing new ways of doing things, and new programs to make life easier and your study more rewarding.

Early Entry

Early Entry rewards high achievements in key subjects with a place at UOW—before you sit the HSC exams. The program is about getting passionate students with appropriate skills in the course that suits them. You'll be assessed based on your past academic record and other criteria such as an interview, workshop or test.

All applications for Early Entry take place online. You can find detailed information on how it works at earlyentry.uow.edu.au

Double Degrees

A double degree from UOW lets you to earn two degrees simultaneously, in less time than it would take to complete them back-to-back. In a modern workforce characterised by collaboration, employers value graduates who can bring a combination of specialist skills and a broad perspective.

UOW double degrees are available in combinations as diverse as you are, giving you the opportunity to pursue all your interests at the same time, no matter how different they might seem.

Scholarships

UOW scholarships and grants demonstrate our commitment to recognition, excellence, equity and diversity.

The scholarship program at UOW rewards students for academic achievement, determination and leadership qualities. As well as cash awards, there are scholarships that offer work and community placements.

Scholarships are complemented by the UOW grants scheme, which supports students experiencing social or financial disadvantage.

For details see www.uow.edu.au/about/scholarships

Bonus Points

Some students are eligible for both these programs, which could mean up to six bonus points when they apply.

Points to UOW

Points to UOW awards up to three bonus points for performing well in relevant HSC subjects. It acknowledges that students who do well in appropriate subjects are often well prepared for university.

There is no separate application for Points to UOW—the calculations are automatic. Once you put in a preference for a UOW course through the UAC system, if you score in the appropriate band in a HSC course, the bonus points will be added to your UOW preference.

For more information see www.uow.edu.au/future/pointstouow

Bonus Points

We also offer bonus points to students attending a school local to UOW and in regional or remote NSW. Students attending an eligible school receive three bonus points.

More information, including a full list of eligible schools, can be found at www.uow.edu.au/future/bonuspoints

ATAR requirements

Below are the ATAR requirements for undergraduate courses at UOW. Courses are listed by ATAR cut-off, highest to lowest.

ADVANCED PROGRAMS

† New Application Process. Students wishing to enter Creative Arts or Journalism degree programs are assessed by ATAR, although outstanding results in relevant subjects will be taken into account. Therefore no specific ATAR requirement is published.

* Entry is based upon appropriate ATAR, and may require a written submission, portfolio or interview/audition. Please note: Dean's Scholar programs can only be taken as a single degree.

‡ Students wishing to enter these degree programs must attend an interview and submit a portfolio. Please contact the Faculty for an application.

New course; approximate ATAR only. Subject to approval.
